

# Trinket Box Pre School

## 01 Health and safety policy

Alongside associated procedures in 01.1 to 01.22 Health and safety, this policy was adopted by:

**TRINKET BOX PRE SCHOOL COMMITTEE on 7<sup>th</sup> DECEMBER 2021**

**Designated Health and Safety Officer is: ANNABEL TOPLEY (NATALIE SOLE in Managers absence)**

### **Aim**

Our provision is a suitable, clean and safe place for children to be cared for, where they can grow and learn. We meet all statutory requirements for health and safety and fulfil the criteria for meeting the Early Years Foundation Stage Safeguarding and Welfare Requirements.

### **Objectives**

- We recognise that we have a corporate responsibility and duty of care towards those who work in and receive a service from our provision. Individual staff and service users also have responsibility for ensuring their own safety as well as that of others. Adherence to policies and procedures and risk assessment is the key means through which this is achieved.
- Insurance is in place (including public liability) and an up-to-date certificate is always displayed.
- Risk assessment is carried out to ensure the safety of children, staff, parents, and visitors. Legislation requires all those individuals in the given workplace to be responsible for the health and safety of premises, equipment and working practices.
- Smoking is not allowed on the premises, both indoors and outdoors. If children use any public space that has been used for smoking, members of staff ensure that there is adequate ventilation to clear the atmosphere. Staff do not smoke in their work clothes and are requested not to smoke within at least one hour of working with children. The use of electronic cigarettes is not allowed on the premises.
- Staff must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If staff are taking medication that they believe may impair them, it is requested that they seek further medical advice and only work directly with children if that advice is that the medication is unlikely to impair their ability to look after children. The setting manager must be informed.
- Alcohol must not be bought onto the premises for consumption.
- Risk assessments are monitored and reviewed by those responsible for health and safety.

### **01.1 Risk assessment**

Risk assessments are carried out to ensure the safety of children, staff, parents and visitors. Legislation requires all individuals in the workplace to be responsible for the health and safety of premises, equipment and working practices. We have a 'corporate responsibility' towards a 'duty of care' for those who work in and receive a service from our provision. Individuals also have responsibility for ensuring their own and others safety.

A daily risk assessment is carried out to ensure the safety of our staff and children. An access audit will be completed should it be required, to ensure the inclusion and health and safety of all visitors, staff and children.

For prioritised places during a national pandemic (such as Covid-19), Management adhere to the **Outbreak Management Plan** (internal document)

# Trinket Box Pre School

Risk assessment means: *Taking note of aspects of your workplace and activities that could cause harm, either to yourself or to others, and deciding what needs to be done to prevent that harm, making sure this is adhered to and is updated when necessary.*

The law does not require that all risk be eliminated, but that 'reasonable precaution' is taken. This is particularly important when balancing the need for children to be able to take appropriate risks through physically challenging play. Children need the opportunity to work out what is not safe and what they should do when faced with a risk.

## **Daily safety sweeps and checks indoors and outdoors**

- Safety sweeps are conducted in the garden when setting up for the day prior to children arriving, and throughout the day via toilet checks. If taking the children out to another area of the school grounds, a safety sweep is carried out also.

## **Health and safety risk assessments**

The setting manager undertakes training and ensures staff have adequate training in health and safety matters. At Trinket Box, we buy into School Site Services and therefore, the following would be undertaken by the school on a regular basis:

- Gas safety by a Gas Safe registered gas/heating engineer.
- Electricity safety by a qualified electrician.
- Fire precautions to check that all fire-fighting equipment and alarms are in working order.
- Hot air heating systems/air conditioning systems cleaned and checked.
- Deep clean is carried out in kitchen.

The setting manager ensures that staff members carry out risk assessments that include relevant aspects of fire safety, food safety, in each of the following areas of the premises:

- Entrance and exits.
- Outdoor areas.
- Main kitchen.

The setting manager ensures staff members carry out risk assessment for off-site activities, such as children's outings (including use of public transport), including:

- Forest school and beach school

The setting manager ensures staff members carry out risk assessment for work practice including:

- Changing babies, and the intimate care of young children and older children.
- Arrivals and departures.
- Children with allergies and special dietary needs or preferences.
- Serving food.
- Cooking activities with children.
- Supervising outdoor play and indoor/outdoor climbing equipment.
- Settling young children to sleep.
- Assessment, use and storage of equipment for disabled children.

# Trinket Box Pre School

- Visitors to the setting who are bringing equipment or animals as part of children's learning experiences, for example: fire engines.
- Following any incidents involving threats against staff or volunteers.
- Following any accident or incident involving staff or children.

## **01.2 Kitchen**

### **General safety**

- Doors to the kitchen are kept always closed.
- Children do not have unsupervised access to the kitchen.
- Children are not taken to the kitchen when snack preparation or cooking is taking place.
- Wet spills are mopped immediately.
- Mechanical ventilation is used when cooking.
- A clearly marked and appropriately stocked First Aid box is kept in the kitchen.

### **Cleanliness and hygiene**

Staff follow the recommended cleaning schedules in Safer Food Better Business (SFBB).

- Floors are washed down at least daily.
- All work surfaces are washed regularly with anti-bacterial agent.
- Inside of cupboards are cleaned regularly.
- Cupboard doors and handles are cleaned regularly.
- Fridge and freezer doors are wiped down regularly
- Ovens/cooker tops are wiped down daily after use; ovens are fully cleaned monthly.
- If dishwashers break down, washing up is done by hand and items are rinsed thoroughly before being dried or air dried.
- Where possible all crockery and cutlery are air dried.
- Plates and cups are only put away when fully dry.
- Tea towels, if used, are used once. They are laundered daily.
- Any cleaning cloths used for surfaces are washed and replaced daily.
- Any repairs needed are recorded and reported to the manager.

## **01.3 Children's bathrooms/changing areas**

- Children bring in a bag containing spare clothing and nappies/pants, which are left on their peg.
- The setting has a waist high changing unit and staff should not have to lift toddlers, so they are encouraged to climb up the stairs.
- Changing mats are cleaned and disinfected in baby change areas.

# Trinket Box Pre School

- Disposable nappies/trainers are cleared of solid waste and placed in nappy disposal units.
- Staff use single use gloves and aprons to change children and wash hands when leaving changing areas.
- Staff never turn their backs on or leave a child unattended whilst on a changing mat.
- Changing area is provided for older (disabled) children, if required.
- Changing mats are disinfected after each change.
- Anti-bacterial spray is not used where residue may have direct contact with skin (i.e. Dettol spray)
- Anti-bacterial sprays used in nappy changing areas are not left within the reach of children.
- All other surfaces are disinfected daily.

## **Children's toilets and wash basins**

- Children's toilets are cleaned twice daily using disinfectant cleaning agent for the bowls (inside and out), seat and lid, and whenever visibly soiled.
- Toilet flush handles are disinfected daily.
- Toilets not in use are checked to ensure the U-bend does not dry out and are flushed every week. Taps not in use are run for several minutes every two to three days to prevent infections such as Legionella.
- Cubicle doors and handles are disinfected regularly.
- Children's hand basins are cleaned twice daily and whenever visibly soiled, inside, and out using disinfectant cleaning agent. Separate cloths are used to clean basins etc. and are not interchanged with those used for cleaning toilets. Colour coded cloths are used.
- Mirrors and tiled splash backs are washed daily.
- Paper towels are provided.
- Bins are provided for disposal of paper towels and are emptied daily.
- All bins are lined with plastic bags.
- Staff who clean toilets wear rubber gloves.
- Staff changing children wear gloves and aprons as appropriate.
- Floors in children's toilets are washed twice daily.
- Spills of body fluids are cleared and mopped using disinfectant.
- Mops are rinsed and wrung after use.
- Mops used to clean toilets or body fluids from other areas are designated for that purpose only and kept separate from mops used for other areas. Colour coding helps keep them separate.
- Used water is discarded down the butler sink/toilet.
- Butler sinks and sluices are cleaned and disinfected at the end of each day.

# Trinket Box Pre School

## 1.4 Outdoors

- All gates and fences are childproof, safe, and secure.
- Areas are checked daily to make sure animal droppings, litter, glass etc. is removed. Staff wear rubber gloves to do this.
- Bushes or overhanging trees are checked to ensure they do not bear poisonous berries.
- Stinging nettles and brambles are removed (Forest School area).
- Wooden equipment is maintained safely and not used if broken.
- Wooden equipment is sanded and varnished as required.
- Broken climbing equipment or outdoor toys are removed and reported to the setting manager.
- Children are always supervised within ratios outside.
- Children are suitably attired for the weather conditions and type of outdoor activities.
- Sun cream (if parents have given permission) is applied and hats are worn during the summer months. Outdoor play is monitored in extreme heat between noon and 3pm.
- Children who have no adequate means of sun protection, such as a hat, long sleeves and trousers or sun cream, will not be able to play outdoors in un-shaded areas.
- Children are supervised on climbing equipment, especially younger children.
- Water play is not left out but is cleared, cleaned and stored after each session.
- Receptacles are left upturned to prevent collection of rain water; this is important in areas where there are vermin to prevent urine/faeces contaminating the water.
- Sightings of vermin are recorded and reported to the School Site Staff who reports to the appropriate pest control company. Site staff ensure that they visit to eradicate the issue.
- Outdoor areas that have flooded are not used until cleaned down and restored. Grassed areas are not played on for at least one week after the floodwater has gone.

### Drones

If there are concerns about a 'drone' being flown over the outdoor area, that may compromise children's safety or privacy, the setting manager will contact the police on 101.

- Children will be brought inside immediately.
- Parents will be informed that a Drone has been spotted flying over the outdoor area and will be advised fully of the actions taken by the setting.
- The police will have their own procedures to follow and will act accordingly.
- If at any point following the incident, photographs taken by a drone emerge on social media that could identify the nursery or individual children, these are reported to the police.
- A record is completed in the Notifiable Incident Record unless there is reason to believe that the incident might have safeguarding implications, for example:
  - The drone has hovered specifically over the outdoor area for any length of time
  - There is a likelihood that images of the children have been recorded.
  - Is spotted on more than one occasion.

# Trinket Box Pre School

- If the Police believe there is cause for concern.

Where this is the case, 06 Safeguarding children, young people and vulnerable adults' procedures are followed.

## **01.5 Staff cloakrooms**

- All areas are kept tidy and always uncluttered.
- Doors to staff/visitor toilets and cloakrooms are kept always shut.
- Staff are provided with a secure area for storing personal belongings, including any medication they are taking.
- Toilet areas are not used for storage due to the risk of cross-contamination.
- Staff/visitor toilets are cleaned daily using disinfectant.
- Toilet flush handles are disinfected daily.
- Toilets that are not in use are checked to ensure that the U-bend is not drying out and are flushed every week. Taps that are not in use are run for several minutes every two to three days to minimise the risk of infections such as legionella.
- Cubicle doors and handles are disinfected regularly.
- Staff hand basins are cleaned daily using disinfectant. Separate cloths are used to clean basins etc. and are not interchanged with those used for cleaning toilets.
- Floors in staff toilets are washed daily.
- Mirrors and tiled splash backs are washed daily.
- Paper towels are provided for hand drying.
- Bins are provided for sanitary wear and cleared as per contract agreement.
- Bins are provided for disposal of paper towels and are cleared daily.
- All bins are lined with plastic bags.
- Members of staff who are cleaning toilets wear rubber gloves that are kept specifically for this purpose to prevent cross contamination.

## **01.6 Maintenance and repairs**

Any faulty equipment or building fault is recorded and site staff are notified, including:

- Date fault noted.
- Item or area faulty.
- Nature of the fault and priority.
- Who the fault is reported to for action.
- Action taken and when.
- If no action taken, the manager will follow this up with the school.

# Trinket Box Pre School

- Date action completed.

Any area that is unsafe because repair is needed, such as a broken window, should be made safe and separated off from general use.

- Any broken or unsafe item is taken out of use and labelled 'out of use'.
- Any specialist equipment (e.g. corner seat for a disabled child) which is broken or unsafe should be returned to the manufacturer or relevant professional.
- Any item that is beyond repair is condemned. This action is recorded as the action taken and the item is removed from the setting's inventory.
- Condemning items is done in agreement with the setting manager. Condemned items are then disposed of appropriately and not stored indefinitely on site.
- Where maintenance and repairs is required, access would only be given when the children are no longer in the building.

## **01.7 Laundry area**

- Children do not have access to laundry areas.
- Laundry areas are kept well ventilated.
- Detergents/detergent pods and cleaning materials are stored out of reach of children.
- Members of staff wash their hands after handling dirty laundry and laundry chemicals.
- Members of staff do not leave the tumble dryers on at night or any other time when the building is vacant.

## **01.8 Staff personal safety**

### **General**

- Members of staff who are in the building early in the morning or late in the evening, ensure that doors and windows are locked.
- Where possible, the last two members of staff in the building leave together after dark and arrange to arrive together in the morning.
- Visitors are allowed access only with prior appointments and once identification is verified.
- Staff make a note in the shared diary of meetings they are attending and when they are expected back.

### **Dealing with agitated parents/visitors in the setting**

- If a parent or visitor appears to be angry, mentally agitated, or possibly hostile, two members of staff will lead them away from the children to an area less open but will not shut the door behind them.
- If the person is standing, staff will remain standing.
- Staff will try to empathise, for example: 'I can see that you are feeling angry at this time'.
- Staff offer to discuss the issue of concern and show they recognise the concern.
- Staff will ensure that the language they use can be easily understood

# Trinket Box Pre School

- Staff will make it clear that they want to hear issues and seek solutions.
- If the person makes threats and continues to be angry, members of staff make it clear that they will be unable to discuss the issue until the person stops shouting or being abusive, avoiding expressions like 'calm down' or 'be reasonable'.
- If threats continue, members of staff will explain that the police will be called and emphasise the inappropriateness of such behaviour in front of the children.
- Procedure '01.09 Threats and abuse towards staff and volunteers' is implemented where staff feel threatened or intimidated.
- After the event, it is recorded in the child's file together with any decisions made with the parents to rectify the situation.
- Any situation involving threats to members of staff are reported to the manager, following procedure '01.09 Threats and abuse towards staff and volunteers'.
- Copies of correspondence regarding the incident will be kept in the relevant child's file.

## **01.9 Threats and abuse towards staff and volunteers**

The setting is responsible for protecting the health and safety of all staff and volunteers in its services and has a duty of care in relation to their physical and emotional well-being. We believe that violence, threatening behaviour and abuse against staff are unacceptable and will not be tolerated. Where such behaviour occurs, we will take all reasonable and appropriate action in support of our staff and volunteers.

- Staff and volunteers have a right to expect that their workplace is a safe environment, and that prompt and appropriate action will be taken on their behalf if they are subjected to abuse, threats, violence or harassment by parents, service users and other adults as they carry out their duties.
- The most common example of unreasonable behaviour is abusive or intimidating and aggressive language. If this occurs, the ultimate sanction, where informal action is not considered to be appropriate or has proved to be ineffective, is the withdrawal of permission to be on the premises.
- Where a person recklessly or intentionally applies unlawful force on another or puts another in fear of an immediate attack, it is an offence in law which constitutes an assault. We would normally expect the police to be contacted immediately.

There are three categories of assault, based on the severity of the injury to the victim.

1. Common Assault - involving the threat of immediate violence or causing minor injury (such as a graze, reddening of the skin or minor bruise).
2. Actual Bodily Harm - causing an injury which interferes with the health or comfort of the victim (such as multiple bruising, broken tooth or temporary sensory loss).
3. Grievous Bodily Harm - causing serious injury (such as a broken bone or an injury requiring lengthy treatment).

There is also an aggravated form of assault based upon the victim's race, religion, disability or sexual orientation and other protected characteristics as defined in the Equality Act 2010 which carries higher maximum penalties.

It is important to note that no physical attack or injury needs to have occurred for a common assault to have taken place. It is sufficient for a person to have been threatened with immediate violence and put in fear of a physical attack for an offence to have been committed.

# Trinket Box Pre School

Any staff member or volunteer who feels under threat or has been threatened, assaulted, or intimidated in the course of their work must report this immediately to their manager who will follow the setting manager's procedures and guidance for responding.

999 should always be used when the immediate attendance of a police officer is required. The police support the use of 999 in all cases where:

- There is danger to life.
- There is a likelihood of violence.
- An assault is, or is believed to be, in progress.
- The offender is on the premises.
- The offence has just occurred, and an early arrest is likely.

If it is not possible to speak when making a 999 call because it alerts an offender, cough quietly or make a noise on the line, then follow the prompts to dial 55 (mobiles only) for a silent call. Police may be able to trace the call and attend the premises.

## **Harassment and intimidation**

Staff may find themselves subject to a pattern of persistent unreasonable behaviour from individual parents or service users. This behaviour may not be abusive or overtly aggressive but could be perceived as intimidating and oppressive. In these circumstances staff may face a barrage of constant demands or criticisms on an almost daily basis, in a variety of formats for instance, email or telephone. They may not be particularly taxing or serious when viewed in isolation but can have a cumulative effect over a period of undermining their confidence, well-being, and health. In extreme cases, the behaviour of the parent or other service user may constitute an offence under the Protection from Harassment Act 1997, whereby:

*A person must not pursue a course of conduct:*

*(a) which amounts to harassment of another, and*

*(b) which he knows or ought to know amounts to harassment of the other.*

If so, the police have powers to act against the offender. Such situations are rare but, when they do arise, they can have a damaging effect on staff and be very difficult to resolve. If the actions of a parent appear to be heading in this direction, staff should speak to their manager who will take appropriate action to support. This may include the manager sending a letter to the aggressor, warning them that their behaviour is unacceptable and may result in further action being taken against them. All incidents must be recorded and reported to the Management Committee.

## **Banning parents and other visitors from the premises**

- Parents and some other visitors normally have implied permission to be on the premises at certain times and for certain purposes, and they will not therefore be trespassers unless the implied permission is withdrawn.
- If a parent or other person continues to behave unreasonably on the premises a letter will be sent to them from the owners/directors/trustees, withdrawing the implied permission for them to be there.
- Further breaches may lead to prosecution of the person concerned by the police and they are treated as a trespasser.
- Full records are kept of each incident, in the Reportable Incident Record, including details of any person(s) who witnessed the behaviour of the trespasser(s), since evidence will need to be provided to the Court.

# Trinket Box Pre School

## **Dealing with an incident**

- We would normally expect all cases of assault, and all but the most minor of other incidents, to be regarded as serious matters which should be reported to the setting manager and/or the police and followed up with due care and attention.
- A record of the incident must be made whether the police are involved or not.
- Whilst acknowledging that service users i.e. parents and families, may themselves be under severe stress, it is never acceptable for them to behave aggressively towards staff and volunteers. Individual circumstances along with the nature of the threat are considered before further action is taken.
- All parties involved should consider the needs, views, feelings and wishes of the victim at every stage. We will ensure sympathetic and practical help, support and counselling is available to the victim both at the time of the incident and subsequently.
- A range of support can be obtained:
  - From the setting manager, Committee members and/or a staff colleague
  - From Victim Support on giving evidence in court
- In non-urgent cases, where the incident is not thought to be an emergency, but police involvement is required, all staff and volunteers are aware of the non-emergency police contact number for the area.
- 999 calls receive an immediate response. Unless agreed at the time, non-emergency calls are normally attended within 8 hours (24 hours at the latest).
- When they attend the setting, the police will take written statements from the victim (including a 'Victim Personal Statement') and obtain evidence to investigate the offence in the most appropriate and effective manner.
- The police will also consider any views expressed by the setting manager and directors/trustees as to the action they would like to see taken. The manager should speak to the victim and be aware of his or her views before confirming with the police how they wish them to proceed.
- In some cases, the victim may be asked by the police if he/she wishes to make a complaint or allegation against the alleged offender. It is important to ensure that the victim can discuss the matter with their manager, a colleague or friend before deciding on their response. It is helpful for the victim to be assured that, if there is a need subsequently to give evidence in court, support can be provided if it is not already available from Victim Support.
- The decision regarding whether an individual is prosecuted is made by the police or Crown Prosecution Service (CPS) based on the evidence and with due regard to other factors.
- After the incident has been dealt with, a risk assessment is done to identify preventative measures that can be put in place to minimise or prevent the incident occurring again.

## **Harassment or intimidation of staff by parents/visitors**

- The setting manager should contact the Committee for advice and support.
- Where the parent's behaviour merits it, the setting manager, with another member of staff present, should inform the parent clearly but sensitively that staff feel unduly harassed or intimidated and are considering making a complaint to the police if the behaviour does not desist or improve. The parent should be left in no doubt about the gravity of the situation and that this will be followed up with a letter drafted by the setting manager but sent to the Committee for approval before being issued.

# Trinket Box Pre School

- The setting manager and/or the Committee might wish to consider advising the parent to make a formal complaint. Information about how to complain is clearly displayed for parents and service users.
- If the investigation concludes that the parent's expectations and demands are unreasonable, and that they are having a detrimental effect on staff, the findings can strengthen the setting manager's position in further discussions with the parent and subsequently, if necessary, with the police.
- Complaints relating to potential breaches of the EYFS Safeguarding and Welfare requirements will be managed according to the '10.2 Complaints procedure for parents and service users'.

## **01.10 Entrances and approach to the building**

- Entrances and approaches are kept tidy and always uncluttered.
- All gates and external fences are childproof and safe
- Front doors are always kept shut and the main door operates with a key fob security system.
- Entry phone is used at the main door.
- The identity of a person not known to members of staff is checked before they enter the building.
- All staff and visitors to the setting sign in and out of the building.
- Two members of staff are usually available to open the door in the morning. Keyworkers will take their children out to parents one at a time at pick up time, whilst another staff member stands at the door.
- Whilst social distancing restrictions are in place a risk assessment identifies measures required to keep parents two metres apart and to reduce risk of parents gathering in entrance areas during peak times.

## **01.11 Control of Substances Hazardous to Health (COSHH)**

- Staff implement the current guidelines of the Control of Substances Hazardous to Health (COSHH) Regulations.
- Personal protective equipment (PPE), such as rubber gloves, latex free/vinyl gloves, aprons etc., is available to all staff as needed and stocks are regularly replenished.
- Hazardous substances are stored safely away from the children.
- Chemicals used in the setting should be kept to the minimum to ensure health and hygiene is maintained.
- Risk assessment is done for all chemicals used in the setting.
- Environmental factors are considered when purchasing, using and disposing of chemicals.
- All members of staff are vigilant and use chemicals safely.
- Bleach is not used in the setting.
- Anti-bacterial soap/hand wash is not normally used, unless specifically advised during an infection outbreak, such as Pandemic flu or Coronavirus.
- Anti-bacterial cleaning agents are restricted to toilets, nappy changing areas and food preparation areas and are not used when children are nearby.

# Trinket Box Pre School

- Members of staff wear rubber gloves when using cleaning chemicals.

## **01.12 Manual handling**

- All staff comply with risk assessment and have a personal responsibility to ensure they do not lift objects likely to cause injury. Failure to do so may invalidate an insurance claim.
- Members of staff bring the setting manager's attention to any new risk, or situations where the control measures are not working.
- Risk assessments may need to be changed for some individuals, such as a pregnant woman, or staff with an existing or previous injury or impairment that may affect their capacity to lift.
- Risk assessment is carried out of the environment in which the lifting is done. Features such as uneven floor surfaces, stairs, etc. add to the general risk and need to be taken into consideration.
- The setting manager ensures that they and their staff are trained to lift and move heavy objects and unstable loads correctly. Young children are also heavy and need to be lifted and carried carefully and correctly.

### **Guidelines:**

- Do not lift heavy objects alone. Seek help from a colleague.
- Bend from the knees rather than the back.
- Do not lift very heavy objects. even with others. that are beyond your strength.
- Use trolleys for heavy items that must be carried or moved on a regular basis.
- Items should not be lifted onto, or from, storage areas above head height.
- Do not stand on objects, other than proper height steps, to reach high objects and never try to over-reach.
- Push rather than pull heavy objects.
- Do not carry heavy objects up or down stairs; or carry large objects that may block your view of the stairs.

Please note this is not an exhaustive list.

- Managers are responsible for carrying out risk assessment for manual handling operations, which includes lifting/carrying children and lifting/carrying furniture or equipment.

## **01.13 Jewellery and hair accessories**

Children, staff members, volunteers and students do not attend the setting wearing jewellery or fashion accessories that may pose a potential hazard to other children or themselves.

- Health and safety take precedence over respect for culture, religion or fashion.
- Members of staff do not wear jewellery or fashion accessories, such as protruding belts or high heels, that may pose a danger to them or to young children (as stipulated in the staff handbook).

# Trinket Box Pre School

- Parents must ensure that any jewellery worn by children poses no risk, for example, earrings which may get pulled, bracelets which can get caught when climbing, or necklaces that may pose a risk of strangulation.
- Children may wear small, smooth stud earrings.
- Children, staff, and volunteers do not wear anything with sharp edges that could scratch children, or jewellery with small elements that could become detached and swallowed.
- Hair accessories that may come loose pose a choking hazard are removed before children sleep or rest.
- Hair accessories that may pose a choking hazard to other children should they become detached, should be removed if members of staff consider this to be a possibility.

## **01.14 Animals and pets**

- There will be no new pets introduced to the setting during the Covid-19 outbreak. Arrangements must be made immediately for any current pets kept within the setting to be temporarily re-homed in case the setting has to close. In the interim the pets may stay at the setting. Views of parents and children are considered when selecting a pet for the setting.
- Staff will be aware of any allergies or issues individual children may have with any animals/creatures.
- A risk assessment is conducted and considers any hygiene and safety risks posed by the animal or creature.
- Suitable housing for the animal is provided and is regularly cleaned and maintained.
- The correct food is offered at the right times and staff are knowledgeable of the pet's welfare and dietary needs.
- Arrangements are made for weekend and holiday care for the animal/creature, if required.
- Children are taught correct handling of the pet and are always supervised.
- Children wash their hands after handling the pet and do not have contact with animal faeces, or soiled bedding.
- Members of staff wear single use vinyl/latex free gloves when cleaning/handling soiled bedding.
- Snakes and some other reptiles are not suitable pets for the setting due to infection risks.
- The manager will check with the Committee before introducing a new pet into the setting.

### **Animals bought in by visitors**

- The owner of the animal/creature maintains responsibility for it in the setting.
- The owner carries out a risk assessment detailing how the animal/creature is to be handled and how any safety or hygiene issues will be addressed.

## **01.15 Face painting and mehndi**

Children are face painted only if parents have given prior written consent. Verbal consent is fine at events where parents are present.

- A child who does not want to have their face painted will not be made to continue.

# Trinket Box Pre School

- Children with open sores, rashes or other skin conditions are not painted.
- Members of staff painting children's faces wash their hands before doing so, cover any cuts or abrasions and ensure they have the equipment they need close to hand.
- Only products with ingredients compliant with EU and FDA regulations are used.
- Clean water is used to wash brushes and sponges between children. Ideally a sponge is used once only before being machine washed on a hot cycle.
- Staff face painting at an event ensure they have a comfortable chair or shoes if standing, to reduce the risk of back or neck strain. Face painting is an activity that can cause repetitive stress injuries; therefore, regular breaks are not taken at events such as fetes.

## **Mehndi painting**

- Staff never mehndi paint children under three years old using henna/henna-based products.
- Parental permission must be gained before staff mehndi paint children over the age of three years old.
- Children prone to allergies, anaemic or suffering from any illness that may compromise their immune system are never painted under any circumstances.
- Black henna is never used and only 100% natural red henna (diluted with water) is used on children.
- It is preferable that non-henna products are used to create mehndi patterns but if the setting operates in an area where mehndi is practiced by families and the criteria above is followed then henna may be used.

## **01.16 Notifiable incident, non- child protection**

Staff respond swiftly, appropriately and effectively in the case of an incident within the setting. Notifiable incidents in this procedure are those not involving child protection.

A 'notifiable' incident' could include:

- Fire or suspected arson.
- Electric or Gas fault.
- Burst pipe, severe leak or flooding.
- Severe weather that has caused an incident or damage to property.
- Break-in with vandalism or theft.
- Staff, parent or visitor mugged or assaulted on site or in vicinity on the way to or from the setting.
- Outbreak of a notifiable disease.
- Staff or parent threatened/assaulted on the premises by a parent or visitor.
- Accidents due to any other faults (that are reportable under RIDDOR).
- Lost child.
- Any event or information that becomes known, that may have implications for the setting or the wider organisation in the future use.

The designated health and safety officer:

# Trinket Box Pre School

- Has all emergency services numbers immediately to hand.
- Has a list of contacts on site for maintenance and repair.
- Ensures that members of staff know what to do in an emergency.
- Risk assesses the situation and decides, with the Committee, if the premises are safe to receive children before any children arrive or to offer a limited service.

## **Emergency evacuation**

In most instances, children will not be evacuated from the premises unless there is an immediate risk or unless they are advised to do so by the emergency services.

- There is an emergency evacuation procedure in place which is unique to the setting and based upon risk assessment in line with others using the building.
- Emergency evacuation procedures are practised regularly and are reviewed according to risk assessment (as above).
- Staff evacuate children to a pre-designated area (as per the fire drill), unless advised by the emergency services that the designated area is not suitable at that time.
- Once evacuated, nobody enters the premises, until the emergency services say so.
- Members of staff will act upon the advice of the emergency services at all times.

## **Emergency Closure**

The circumstances under which the setting may be closed due to an incident include:

- The Committee makes the decision to close – thereby withdrawing the service.
- A third party makes the decision to close for example:
  - A school, where the setting is on a school site.
  - The emergency services.
- A parent makes the decision for their child not to attend.
  - If a parent makes the decision for their child not to attend due to a critical incident, the child's fees are due as normal.
  - Further consideration of individual incidences must be done in consultation with the Committee.

## **Recording and reporting**

- On discovery of the notifiable incident, the Manager/Deputy Manager reports to the appropriate emergency service, fire, police, ambulance, if those services are needed.
- The Manager/Deputy Manager ensures that the Committee is informed.
- The setting manager completes and prepares an incident record and according to the severity of the incident notifies Ofsted or RIDDOR.
- If the incident indicates that a crime may have been committed, all staff witness to the incident should make a written statement.
- Staff do not discuss the incident with the press.

RIDDOR reportable events include:

# Trinket Box Pre School

- Specified injuries at work, as detailed at [www.hse.gov.uk/pubns/indg453.pdf](http://www.hse.gov.uk/pubns/indg453.pdf)
- Fatal accidents to staff, children and visitors (parents).
- Accidents resulting in the incapacitation of staff for more than seven days.
- Injuries to members of the public, including parents' and children, where they are taken to hospital.
- Dangerous 'specified' occurrences, where no-one is injured but they could have been. (these are usually industrial incidents).

This may include:

- A member of staff injures back at work through lifting and is off for two weeks.
- A parent slips on a wet floor near the water tray and is taken to hospital.
- A child falls from a climbing frame and is taken to hospital.
- The ceiling collapses.
- An outbreak of Legionella.

The setting manager informs the Committee and completes an accident and/or incident record; witness statements are taken as previously detailed.

- If the incident is RIDDOR reportable, the setting manager telephones HSE Contact Centre on 0345 300 9923 or reports online at [www.hse.gov.uk/riddor/report.htm](http://www.hse.gov.uk/riddor/report.htm)
- RIDDOR Reportable events require reporting to RIDDOR within 15 days of the event occurring.

The local authority investigates all reported injuries, diseases or dangerous occurrences. They will decide if there has been a breach in health and safety regulations and will decide what measures will be taken.

The Committee review how the situation was managed, as above, to ensure that investigations were rigorous and that policies and procedures were followed.

If an insurance claim is likely:

- Incidents such as fire, theft or flood are notified to the insurance provider immediately.
- The setting does not admit liability.
- If broken or faulty equipment is involved, it must not be repaired, destroyed or disposed of, in case it is needed during the investigation.
- If communication from a solicitor is received on behalf of the injured party, this is sent directly to the insurance provider; the setting manager will then write to the solicitor to confirm that the letter has been passed on.
- The incident is not discussed with any outside persons, or other parents, no matter what questions they may ask about their own child's safety in relation to the incident, as it is regarded as confidential under the Data Protection Act.

## **01.17 Terrorist threat/attack and lock-down**

Most procedures for handling an emergency are focussed on an event happening in the building. However, in some situations you will be advised to stay put (lock-down) rather than evacuate. 'Lock-down' of a building/group of buildings is intended to secure and protect occupants in the proximity of an immediate

# Trinket Box Pre School

threat. By controlling movement in an area, emergency services can contain and handle the situation more effectively.

- The setting manager assesses the likelihood of an incident happening based on their location.
- The setting manager will check our police website for advice and guidance.
- Local police contact number is clearly displayed for staff to refer to.
- Staff rehearse simple 'age appropriate' actions with the children such as staying low to the floor, keeping quiet and listening to instructions in the same way that fire procedures are practiced. Lock-down must be rehearsed and recorded termly.
- We follow any additional advice issued by the local authority.
- Emergency procedures are reviewed and added to if needed.
- Information about this procedure is shared with parents and all staff are aware of their role during 'lockdown'.
- A contact message is issued to parents when lockdown is confirmed (via text/email/Tapestry/website).

## Suggested wording for parent message

*Due to an incident we have been advised by the emergency services to secure the premises and stay put until we are given the 'all clear'. Please do not attempt to collect your child until it is safe to do so. We will let you know as soon as we are able to, when that is likely to be. In the mean time we need to keep our telephone lines clear and would appreciate your cooperation in not calling unless it is vital that you speak to us.*

## Lock-down procedures

If an incident happens the setting manager acts quickly to assess the likelihood of immediate danger. In most cases the assumption will be that it is safer to stay put and place the setting into 'lockdown' until the emergency services arrive. As soon as the emergency services arrive at the scene staff comply with their instructions.

## During 'lock-down'

- Staff and children stay under the mezzanine area or upstairs if it is safe to do so.
- Doors and windows are secured until further instruction is received.
- Curtains and blinds are closed where possible.
- Staff and children stay away from windows and doors.
- Children are encouraged to stay low and keep calm.
- Staff tune into a local TV or radio station for more information.
- Staff do NOT make non-essential calls on mobile phones or landlines.
- If the fire alarm is activated, staff and children remain in their designated area and await further instructions from emergency services, unless the fire is in their area. In which case, they will move to the next area, following usual fire procedures.

**The door will not be opened once it has been secured until the manager is officially advised "all clear" or is certain it is emergency services at the door.**

# Trinket Box Pre School

During lockdown staff do NOT:

- Assemble in large open areas.
- Call 999 again unless there is immediate concern for their safety, the safety of others, or they feel they have critical information that must be passed on.

## **Following lockdown:**

- Staff will cooperate with emergency services to assist in an orderly evacuation.
- Staff will ensure that they have the register and children's details.
- Staff or children who have witnessed an incident will need to tell the police what they saw. The police may require other individuals to remain available for questioning.
- In the event of an incident it is inevitable that parents will want to come to the setting and collect their children immediately. They will be discouraged from doing so, until the emergency services give the 'all clear'. Staff will be always acting on the advice of the emergency services.

## **Recording and reporting**

- The setting manager reports the lockdown to the Committee as soon as possible. In some situations, this may not be until after the event.
- A record is completed as soon as possible.
