

E-safety

The Trinket Box Pre School take steps to help and support and protect children, young people and staff when using technology in the setting. We have produced an e-safety policy which emphasises learning to understand and use new technology in a positive way. All our policies are in the foyer for your perusal.

The policy also states how staff are aware of the potential risks of using social networking sites e.g. Facebook. Staff are not allowed to accept 'friend requests' from Trinket Box parents on Facebook, unless they already had a previous friendship so please don't be offended if your request is ignored!

During events linked with the setting, it is not a breach of the Data Protection Act for parents to take photographs of their children. However, it is a breach of the Data Protection Act, if the parents add these photographs, containing other children, onto networking sites, such as Facebook.

We recommend that if you wish to upload photographs of your child, taken at Trinket Box, to crop them beforehand so only your child can be seen.
